

European Beach Handball Tour (ebt) Tournament checklist for organisers

The following information are the guidelines for ebt organisers for the current ebt season 2021/22 and should guarantee a proper implementation of the needed conditions.

1. Tournament registration

- The organisers register their tournaments on the ebt website (www.eurohandball-beachtour.com) by filling in a form sheet containing all required criteria. By fulfilling these criteria, the organiser will be awarded with the recognition as a member of the European Beach Handball Tour and preliminary tournament points.
- Only after the head delegate confirms the nomination, the tournament will be published on the website.
- Nominated officials (EHF delegates, referees or National Observer) need to confirm their nomination within 15 days.
- It's recommended to contact the delegates and referees before the nomination via the website, to be sure about their availability. The updated list of ebt officials and the contact details are available under the following link: <http://www.eurohandball-beachtour.com/desktopdefault.aspx/tabid-30/>
- The registration of an ebt tournament can only be made until **30 days** before the start of the tournament. The system does not allow a later registration and no exception will be made to this rule.

2. Live-streaming

The live-streaming link need to be sent to EHF office at least **14 days** before the start of the tournament, otherwise the points are not granted.

3. Branding

- EHF revealed the new brand identity for beach handball last season with the new logo and visual materials for every EHF beach handball competition. Also the ebt logo and appearance was updated and new flags are available.
- Every confirmed ebt organiser is requested to inform the EHF about the delivery details (address and contact person) to receive the new flags in time before the start of the tournament, if not received already last season.
- The old branding material should not be used for the new season and the EHF officials/ebt observer is responsible to check the branding material on site.
- The use of the new logo is **mandatory**, and all visual and promotional materials with the ebt and beach handball logos should be approved by EHF Office before published or printed.

Download: The ebt logos and the guidelines are available under the following link: <https://cloud.ehf.eu/index.php/s/JPnNSNMQfBiGRqL>

4. Social media and promotional material

The EHF media team invites all organisers to share high-quality content (pictures and videos) with the EHF in order to promote the respective ebt tournaments and ebt season on the EHF platforms during the season.

Prior to the event:

The official social media channels of the event/organiser shall be communicated to EHF office at least 14 days before the start of the tournament for cross promotion and tagging.

At least one week before the event, a selection of pictures (2-5 pictures) from the previous editions or a new venue should be shared with the EHF office.

After the event:

At least 2 days after the event, a selection of pictures (5-10 pictures) from the tournament should be shared with EHF office.

Important: All provided material (videos, photos and visuals) should follow the spirit of game: *summer feeling, fair play attitude, spectacular actions and fun between players.*

With this promotion material a positive image of the event and beach handball in general should be created (full stands, emotions, respectful and motivating).

It's up to the EHF media department according to the communication strategy to decide which provided material will be posted and there is no right to claim any publication/posting by the organisers.

5. Nomination EHF referees

For tournaments with more than 200 provisional tournament points, the EHF reserves the right to nominate one EHF referee pair in due time before the start of the tournament.

6. Draw

The draw of the groups for an ebt tournament shall follow the ebt ranking of the current season from now on (instead of the previous season).

In order to maintain this system, it is very important to receive the results and reports from each tournament as soon as possible and at least 3 days after the end of the tournament.

7. Health and Safety measures

With the hope that the pandemic will no longer be a problem in 2022, all ebt organizers and persons involved have to adequately implement preventions and control measures according to the national laws to reduce the risk of transmission and to guarantee a safe environment for the players and all involved persons.

For each ebt tournament, the organizers are in full charge and primarily responsible to observe, implement and monitor the government's body and the local health authorities' guidelines and recommendations for sport event.

The EHF Officials and National Observers present at ebt tournaments need to be informed and request these guidelines before the tournament start to follow them on site and to help to ensure a safe environment on the courts, and share the implemented guidelines on the event report.

8. hummel

EHF Officials must only wear hummel equipment or neutral clothing on the courts.

9. Reports

Each head delegate is obliged to enter the ranking of the event and to send a written report including photos of the tournament within 3 days after the end of the tournament. The report should also contain the list of the EHF Officials who attended the event, and the list of players per team (first name, last name, nation, birth date) who attended the tournament, as attachments. The final verification of the tournament and the points for the teams will only be granted after the complete report (+ pictures) was sent.

Each organiser is requested to support the head delegate by providing all needed information during and after the event: results and ranking, photos and all relevant details.

10. Verification head delegates

As a first step of the verification process each head delegate needs to updated and include all needed information on the ebt website: check and update of the tournament criteria and points, final ranking and teams points and then click the verification checkbox.

11. Verification EHF

The final confirmation and verification of the tournament is done by EHF Office only AFTER the correct verification by the head delegate and the submission of the tournament report.

In case of any questions or requests, please do not hesitate to contact the EHF office:

- ebt Administration: Nancy Johnson
